For tomorrow and beyond. About T-Systems MMS

T-Systems MMS facilitates the digital transformation of large corporations and medium-sized companies. With an annual 2020 turnover of € 191,5 million, it enables its customers to develop new digital business models for Industrial IoT, Customer Experience, New Work and Digital Reliability. With around 2,100 employees at seven locations, the digital service provider offers dynamic web and application management and ensures the highest software quality, accessibility and IT security with an accredited test center.

T-Systems MMS has been honored several times with the “Social Business Leader Award” backed by the Experton Group, as well as the “iF Design Award” and has been 2017 a winner of the Outstanding Security Performance Awards. Headquartered in Dresden, the company has also received the “Great Place to Work Award” several times as one of Germany’s best employers and was awarded as “Beste Berater 2020” (best consultants) by the german business journal “brand eins”.
